

Transparent Contract Management

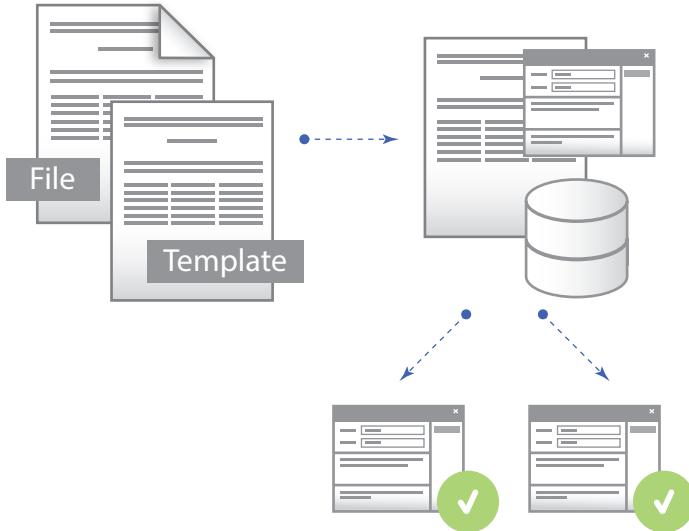

From creation through approval to obligation fulfillment

Conterra Contract Management

Thanks to Conterra Contract Management, based on the Conterra Enterprise Content Management (ECM) platform by Orienge, the whole process is fully automated and easily moves your contracts through every step of approval.

Create and Approve

Effortlessly create contracts uploading a file or using a corresponding template. Relevant templates that are filled out automatically, allow contract authors to avoid many costly confusions. The solution ensures complete transparency and compliance on each stage of contract approval.

With Conterra Contract Management,
your contracts always comply with your corporate policies

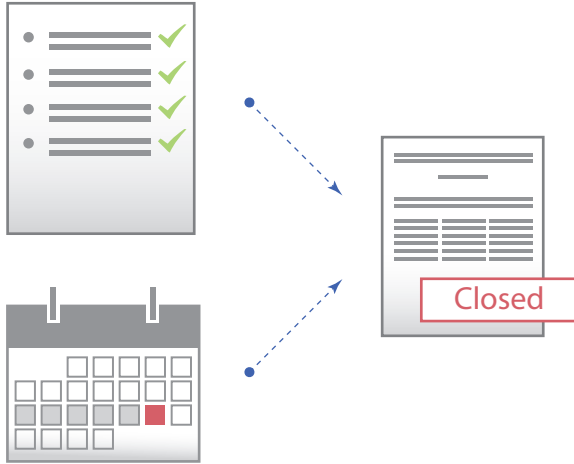

Manage Obligations

Conterra Contract Management automatically sends obligation-associated tasks to specified performers, while supervisors receive notifications. The solution provides the necessary visibility that ensures better and more controllable obligation fulfillment.

Conterra Contract Management
can reduce risks of late obligation fulfillment by 80%

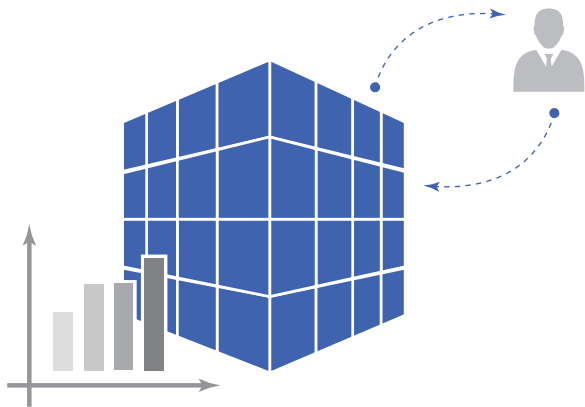

Renew and Close

Conterra Contract Management automatically closes contracts on expiration dates and upon obligation performance. The system notifies you of upcoming contract deadlines so that you can reassess contracts to initiate renewal or close-out process.

Due to Conterra Contract Management,
you always know the status of your contracts

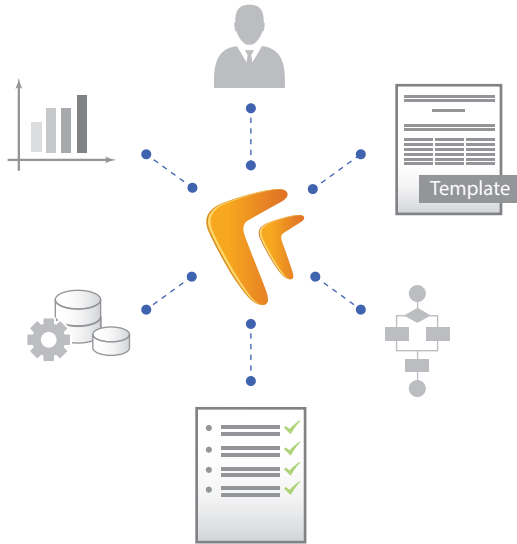

Store and Analyze

Due to high-level storage and search functionality, you can find necessary contracts and related documents in a snap of time. With Conterra Contract Management, you always get comprehensive information on your assets through generating up-to-date reports and viewing KPIs.

With Conterra Contract Management,
you find contract-related documents 10 times faster

Manage Contracts More Consistently and Profitably

The solution allows you to promptly handle contracting processes and activities, mitigating risks and driving business value. Now you can transparently manage obligations and get full-scale information on your contracts. With Conterra Contract Management you gain benefits, avoiding costly pitfalls and delays.

More than 1,700 companies in 11 industries across 7 countries use software built on our platform. Powerful and flexible Contrerra workflow engine ensures automating a full cycle of contract handling from creating drafts to fulfilling obligations and closing contracts.
