Orienge Presents Next Generation of Conterra FIM (V2.0) for Accounts Payable Automation and Now Including Expense Report Management at Fusion 2014, Booth #617

New York, New York, April 23, 2014 – Orienge, LLC (“Orienge”) announces participation in the forthcoming conference & expo Fusion 2014 presenting the next generation of [Conterra FIM](#), comprehensive enterprise-level software, comprising accounts payable automation, invoice management and a new functionality, expense report management.

[Fusion 2014](#) is the largest event of the year for accounts payable, accounts receivable, and the related fields of information management and data capture. This year’s conference offers more than 150 educational sessions across a dozen focused learning tracks, exceptional networking & social events, and a vibrant exhibit hall hosting more than 125 providers of financial operations’ products and services.

Fusion 2014 will take place in Dallas at the Gaylord Texan Resort and Convention Center, May 5-8, 2014 where Orienge will demonstrate the latest version of Conterra Financial Information Management, [Conterra FIM](#) 2.0. We invite you to visit Orienge’s [booth number 617](#) to learn more.

Attendees can get acquainted with the newest [Conterra FIM](#) version highlighted by an enhanced interface, improvements to the front-end OCR process, new settings to adapt to unique business rules, advanced GL coding support and the new Expense Report Management. This software, a natural addition to Conterra FIM APA, is designed to streamline expense reports input, verification, approval and payment processes for both pre-paid and non-pre-paid expenses. Integration with your accounting or payroll system facilitates payment and reimbursement processes, simplifies reports creation and provides efficient financial control.

“I am proud to present the latest version of the Conterra FIM software to the attendees of Fusion 2014 conference” said Daniel P. Shields, President and CEO of Orienge. “Now with the extended functionality, Conterra FIM allows you to streamline the approval process for both invoices and expense reports, increase financial transparency, minimize cheating and better manage your company expenses. Visit our booth number 617 and be the first to see the new features with your own eyes. If you cannot attend the conference, take the chance to visit our website and get a free in-person [demo](#) to know us better”
