# Streamline

After automatic ICR processing, incoming invoices enter a queue for validation and are routed according to your approval process with all relevant information from other business systems. This means no more undiscovered discrepancies, faster input, and faster payment.

With Conterra FIM, you can reduce the cost to process each invoice by 70%

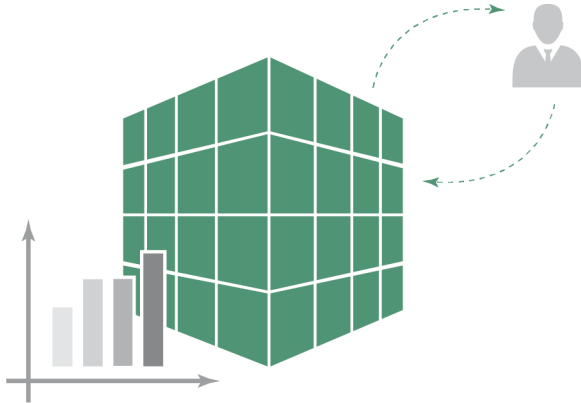

# Get Results

When your approval process is transparent as well as connected to all documents and correspondence associated with that invoice, approval decisions are made faster and with a full picture. Finally, confidently approving invoices is straightforward and fast.

Conterra FIM can decrease overdue payment fees by 80%

# Analyze

Since Conterra FIM can talk to your ERP or other accounting system, you get reliable information, status reports and notifications. Easily find the history and information related to any invoice and always be audit-ready.

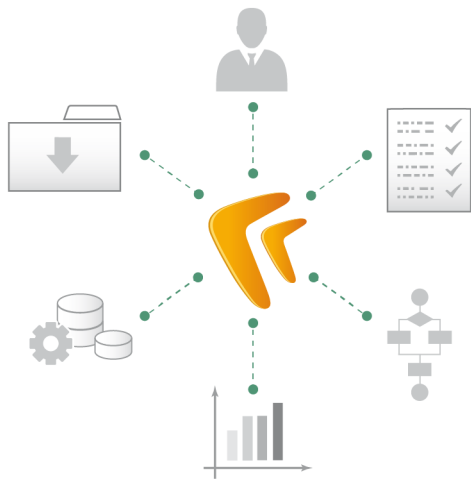

Conterra FIM can reduce costs for financial records storage and requests by up to 90%

# Only 15 days

Conterra FIM is user friendly and powerful, but also easy to set up (in about 15 business days). You can see benefits in a very short period of time.

# Your process faster, more accurate & more secure

Once Conterra FIM links your systems and information, approval routes stay on track and everything gets done your way with improved speed, accuracy and security.
